

FORM G-1

HEALTH CLEARANCE REQUIREMENTS ACKNOWLEDGEMENT FORM

Requirement:

All SONDH students enrolled in a clinical/precepted course **MUST** clear all “health” clearance in addition to any site-specific requirements. Students **MUST** remain clear for the entire duration of their clinical/precepted experience (i.e., **NO** mid-semester renewals).

Below are current “Initial” health clearance requirements as of **3/10/2025**; **your documentation must satisfy all specified requirements detailed in your Incoming SONDH Health Clearance documentation:**

- Tuberculosis (TB) Clearance (NO Provisional Clearance)-IGRA Blood Test or CXR
- 5 Required Positive Titers: Hepatitis-B Surface AB; Mumps, Rubeola, Rubella, and Varicella IgG titers
- COVID-19 Vaccination Clearance (strongly recommended)
- Annual Influenza Clearance
- Tetanus/Diphtheria/Pertussis Vaccination Clearance
- Vaccination records verifying the completion of the following series: Hepatitis-B, MMR, and VZV
- American Heart Association (AHA) BLS CPR eCard (NO substitutes accepted; NO Provisional Clearance)
- HIPAA and BBP Certification (both earned from the Hawai'i State Center for Nursing website)

In addition to the “Initial” health clearance requirements, **the following requirements must be renewed so that you have full coverage for the entire upcoming Fall and Spring semesters:**

- Tuberculosis (TB) Clearance **MUST** be renewed ANNUALLY (ideally in May).
- Td clearance is valid for 10 years from the day you received your last TdaP/Td booster shot and **MUST** be renewed as needed.
- Influenza Clearance **MUST** be renewed ANNUALLY in the Fall semester (usually in September).
- AHA BLS CPR certification **MUST** be renewed if your current AHA BLS CPR eCard expires before the end of the upcoming academic year. You **MUST** have your valid AHA BLS CPR eCard **4 weeks before the start of the next Fall semester**. You **MUST** recertify with an official American Heart Association trainer center (no substitutes accepted, even if it claims to be equivalent).

There are clinical sites with their own site-specific requirements that you must satisfy (e.g., their own BBP and HIPAA training, special onboarding forms, criminal background checks, finger printing, stricter COVID-19 and Influenza requirements, additional health clearance requirements, etc.). Students will submit documentation for these site-specific requirements as needed by the specified deadline(s).

Finally, there is ALWAYS the possibility of a NEW or MODIFIED requirement(s).
